

September 6, 2012

It is with great pleasure that we announce the release of:

XProtect Screen Recorder 1.5

The XProtect Screen Recorder is a function that enables Milestone XProtect IP video management software (VMS) to inconspicuously capture screen recordings of any Windows-based PC or point-of-sale terminal. Captured screen recordings are managed in the same way as video camera data in the XProtect VMS. This feature helps manage loss and fraud by monitoring the use of business systems and documenting customer transactions. XProtect Screen Recorder improves efficiency by allowing you to audit staff activities and conduct training and education. The XProtect Screen Recorder works seamlessly with all Milestone XProtect VMS products.

With XProtect Screen Recorder 1.5 you can monitor and document your business operations and activities

What's new in XProtect Screen Recorder 1.5?

XProtect Screen Recorder 1.5 offers a set of new features:

- **Flexible screen selection**
The new XProtect Screen Recorder offers an extended and more flexible way of handling multi-screen setups. With XProtect Screen Recorder 1.5 it's possible to record a single screen in a multi-screen setup. It is also possible to record multiple screens
- **User agnostic recording**
Being completely decoupled from a specific Windows user account, XProtect Screen Recorder 1.5 offers continuous recording regardless of which user is logged in to the monitored PC
- **Enhanced recording performance**
XProtect Screen Recorder 1.5 uses an optimized capture and recording technology that is more efficient and

preserves the CPU power for the core business applications by causing less additional load on the monitored PC

System requirements

The XProtect Screen Recorder 1.5 can run on the following Windows® operating systems:

- Client operating systems: Microsoft® Windows XP or newer
- Server operating systems: Microsoft Windows Server 2003 or newer

The XProtect Screen Recorder does not require any particular hardware. However, the use of XProtect Screen Recorder will put additional load on the monitored PC. The additional load depends on a number of factors, including recording resolution and frame rate, number of screens recorded, etc.

The driver for XProtect Screen Recorder 1.5 is distributed as a part of Milestone's device pack 6.0, or later device pack.

Supported languages

The XProtect Screen Recorder administrator application is only available in English.

Product availability

XProtect Screen Recorder 1.5 is available for download on Milestone's website as of September 6, 2012.

Licensing

The XProtect Screen Recorder is not subject to licensing and may be used free of charge together with any of Milestone's XProtect VMS platforms. Therefore, no license code is needed to install the software.

Please note that each XProtect Screen Recorder requires one camera or device license in the XProtect platform with which it is used.

Best regards,

The Milestone Team
